Uganda is located in the heart of sub-Saharan Africa. With its breathtaking equatorial location on the forested shore of island-strewn Lake Victoria, it is clear that Uganda is a country of amazing natural beauty and splendor. The people of Uganda are amongst the most hospitable in Africa. The nation is a result of the unification of ancient kingdoms, as well as many independent chieftains. Their heritage of these kingdoms lives on in the hearts of the people, and their traditional costumes, language, and practices are unmistakable in the daily life of Uganda today.
